DESIGN SOFTWARES

- Tekla
- ANSYS
- AutoCAD
- CATIA

SKILLS

- Analytical thinking
- Critical thinking
- Leadership
- problem solving

LANGUAGES

- English
- Telugu

CERTIFICATES

- MEDHA (Quiz) Participation, event of LAKSHYA 2K22
- CRUIZE Participation, event of LAKSHYA 2K2

PROGRAMMING LANGUAGES

- c (Basics)
- Python (Basics)

PROFILE

Dynamic and results-oriented Mechanical Engineer with a strong foundation. Proven ability to analyze complex problems and develop innovative solutions. Seeking a challenging role to contribute to cutting-edge projects and advance my engineering career.

EDUCATION

● Bachelor of technology 2022-2025

Lakireddy balireddy college of engineering

- Mechanical engineering (8.13 CGPA)

● Diploma 2018-2022

Sarada Institute of Science Technology and Management

- Mechanical engineering (73.08%)

● SSC 2018

AP Residential School, SM Puram (8.7 GPA)

INTERNSHIP

Intern

BHEL-HPVP VISAKAPATNAM MAY 2024-JUN 2024

- Gain the knowledge about Non destructive tests (NDT) and welding

SYTIQHUB EDUCATIONAL SERVICES PRIVATE LTD JUN 2023-AUG 2023

- Gain the knowledge about drone technology

INDUSTRIAL TRAINING

Trainee

SREE RAGHAVENDRA TECHNOLOGIES JUL 2020-JAN 2022

- Gain the knowledge about CNC programming

PROJECT WORK

DESIGN AND ANALYSIS OF GREEN HYDROGEN GENERATION SYSTEM

- This project proposes a conceptual design for a hydrogen generation system powered by a hybrid solar-wind setup. It aims to produce clean electricity for domestic use and green hydrogen through electrolysis. The design will be modeled using CATIA P3V5R21 software. This approach promotes clean energy and reduces reliance on fossil fuels.

WORKSHOPS

- Electric and Solar Vehicle-Design and Development
- Modeling and Simulation using unigraphics NX
